Summary

I am a dedicated software engineering student with a strong passion for AI startups and an active involvement in the IT community. With a keen interest in robotics, space, blockchain, and AI, I bring a diverse skill set and a forward-thinking mindset. I have gained practical experience in AI-driven projects, honed my technical abilities through coursework, and actively network on LinkedIn to stay informed about industry trends. Volunteering within the IT community has allowed me to collaborate with like-minded professionals and share knowledge. I am eager to contribute my skills, knowledge, and enthusiasm to the development of transformative technologies and make a positive impact in the industry.
